

Inspection Form

Form WMSC-IR-1

Washington Metrorail Safety Commission

Agency/Department Information

	YYYY/MM/DD	Secretary of the	20220324-WMATA-LBW-1			
Inspection Date	2022/03/24	Report Number				
Rail Agency Name	Washington Metropolitan Area Transit Authority	Rail Agency Department	Name			
Rail Agency Department	Communications	Contact Information				
Inspection Location	Archives- Navy Memorial to L'Enfant Plaza Stations					

Inspection Summary

Inspection Activity #	1
Activity Code	
Inspection Units	
Inspection Subunits	
Defects (Number)	0
Recommended Finding	No
Remedial Action Required ¹	No
Recommended Reinspection	No

This inspection was completed as part of WMSC's communications 2022 audit of Metrorail. WMATA currently has a communications corrective action open, C-0100 (Metrorail is not maintaining a fully functioning radio communications system in all rail yards and shops) resulting from a previous inspection activity conducted March 26, 2021 (20210326-WMATA-LBW-1). This radio inspection was accomplished by performing radio checks with the Rail Operation Control Center (ROCC) on rail operations channel 3 (Ops 3) from various locations along the Metrorail roadway. The inspectors also monitored radio communications between ROCC and Metrorail personnel in the performance of their duties. The WMSC inspectors accompanied four Office of Emergency Preparedness (OEP) personnel that were performing a training exercise for 8 regional first responders. The protection utilized for this inspection was Advanced Mobile Flagger (AMF) with the AMF located at L'Enfant Plaza 8-car marker Track #1. The roadway worker in charge (RWIC) was OEP 27, the advanced mobile flagger (AMF) was OEP 22, and the watchman lookout (W/L) was OEP 20. Prior to beginning the inspection activities and track walk, the WMSC inspectors attended a job safety briefing conducted by OEP 27 at Archives Station. The WMSC inspectors contacted the ROCC (rail ops 3) by telephone prior to entering the roadway to brief the inspection activity. An exit briefing was conducted with the Office of Emergency Preparedness RWIC. AMF and W/L at L'Enfant Plaza Station. ¹The rail transit agency must provide WMSC with the necessary evidence (e.g. maintenance work order system records, photos, documentation, records, data, or other evidence) to close out the Remedial Action. Closeout of Remedial Actions may also be subject to ongoing WMSC verification inspections to ensure corrections are sufficient and effective.
