STATEMENT OF WORK

I. Introduction

Background

The WMSC is a small (approximately 25 full-time employees), state-level government agency. All WMSC IT operations are cloud based; the WMSC does not maintain any local servers. The WMSC wishes to maintain this cloud-based posture; however, the WMSC desires to improve its cloud-based user experience, security, and resiliency. The WMSC has conducted an IT Assessment and would like to implement those recommendations. The WMSC primarily works remotely and extensively uses its cloud-based tools to share information and collaborate in real-time on document preparation and editing in the remote work environment, including with contractors and other non-employees. Although the WMSC desires to improve its information security posture, it is critical that security enhancements do not preclude sharing and collaboration with non-employees. The WMSC uses Zoom for its remote meeting needs, and the WMSC has built out two dedicated “Zoom Rooms” for videoconferencing in its on-site office space.

General Information

The Washington Metrorail Safety Commission is requesting quotations from qualified firms to perform Information Technology (IT) Services beginning July 1, 2024, with the Base Year Ending June 30, 2025. The WMSC is contemplating awarding a contract with one (1) 12- month base year and renewal options for two (2) additional one-year terms.

There is no expressed or implied obligation for the WMSC to reimburse responding firms for any expenses incurred in preparing quotations in response to this request. Quotations submitted are subject to public inspection and will be evaluated by a review committee.

The WMSC reserves the right, where the WMSC determines it serves in its best interest, to request additional information or clarification from proposers, or to allow corrections of errors or omissions. At the discretion of the WMSC, firms submitting quotations may be requested to make oral presentations as part of the evaluation process.

The WMSC reserves the right to retain all quotations submitted and to use any idea in a quotation regardless of whether that quotation is selected. Submission of a quotation indicates acceptance by the firm of the conditions contained in this Request for Quotation, unless clearly and specifically noted in the quotation submitted and confirmed in the contract between the WMSC and the firm selected.

The WMSC has determined a desire to establish this agreement under a Disadvantaged Business Enterprise (DBE) provision thereby seeking Vendors that can meet the aspired 25% or greater goal for DBE participation.

The WMSC anticipates selecting a firm by June 1, 2024. The WMSC reserves the right to reject any quotation, to waive any non-material irregularities or information in any quotation, and to accept or reject any item or combination of items.

REQUIRED CLAUSES FOR FTA-ASSISTED CONTRACTS

These requirements do not apply to micro-purchases (\$10,000 or less), except that Davis-Bacon and Copeland Anti-Kickback Act requirements apply to contracts over \$2,000 for Construction, including Ferry Vessels.

Applicability data is found on the table above and with each clause below. Please review your specific funding source for additional applicability and requirements. Any updates to these clauses by the FTA not reflected here shall be considered in full force and effect.

1. No Federal Government Obligation to Third Parties.

Authority - FTA Master Agreement (30) at Section 3(I)

Applicability - all contracts

Except as the Federal Government expressly consents in writing, the Authority and Contractor agrees that:

(1) The Federal Government does not and shall not have any commitment or liability related to the Contract, to any Contractor or Subcontractor at any tier, or to any other person or entity that is not a party (FTA or the Authority) to the Contract; and

(2) Notwithstanding that the Federal Government may have concurred in or approved any Solicitation or Third Party Agreement at any tier that may affect the Contract, the Federal Government does not and shall not have any commitment or liability to any Third Party Participant or other entity or person that is not a party (FTA or the Authority) to the Contract.

Flow Down Requirements - This requirement flows down to all subcontracts at every tier.

2. Program Fraud and False or Fraudulent Statements and Related Acts.

Authority - 49 U.S.C. § 5323(l) (1), 31 U.S.C. §§ 3801-3812, 18 U.S.C. § 1001 and 49 CFR. Part 31, FTA Master Agreement (30) at Section 39(b).

Applicability - all contracts

The Contractor acknowledges that the provisions of the Program Fraud Civil Remedies Act of 1986, as amended, 31 U.S.C. § 3801 et seq. and U.S. DOT regulations, "Program Fraud Civil Remedies," 49 CFR. Part 31, apply to its actions pertaining to this Project. Upon execution of the underlying contract, the Contractor certifies or affirms the truthfulness and accuracy of any statement it has made, it makes, it may make, or causes to be made, pertaining to the underlying contract or

the FTA assisted project for which this contract work is being performed. In addition to other penalties that may be applicable, the Contractor further acknowledges that if it makes, or causes to be made, a false, fictitious, or fraudulent claim, statement, submission, or certification, the Federal Government reserves the right to impose the penalties of the Program Fraud Civil Remedies Act of 1986 on the Contractor to the extent the Federal Government deems appropriate.

The Contractor also acknowledges that if it makes, or causes to be made, a false, fictitious, or fraudulent claim, statement, submission, or certification to the Federal Government under a contract connected with a project that is financed in whole or in part with Federal assistance originally awarded by FTA under the authority of 49 U.S.C. chapter 53, the Government reserves the right to impose the penalties of 18 U.S.C. § 1001 and 49 U.S.C. § 5323(l) on the Contractor, to the extent the Federal Government deems appropriate.

Notification to FTA. If a current or prospective legal matter that may affect the Federal Government emerges, the Authority must promptly notify the FTA Chief Counsel and FTA Regional Counsel for the Region in which the Authority is located. The Authority must include a similar notification requirement in its Contracts that must require each Contractor to include an equivalent provision in its sub agreements at every tier, for any agreement that is a “covered transaction” according to 2 CFR §§180.220 and 1200.220.

(1) The types of legal matters that require notification include, but are not limited to, a major dispute, breach, default, litigation, or naming the Federal Government as a part to litigation or legal disagreement in any forum for any reason.

(2) Matters that may affect the Federal Government include, but are not limited to, the Federal Government’s interests in the Award, the accompanying Contract, and any Amendments thereto, or the Federal Government’s administration or enforcement of federal laws, regulations, and requirements.

Additional Notice to U.S. DOT Inspector General. The Authority or Contractor must promptly notify the U.S. DOT Inspector General in addition to the FTA Chief Counsel or Regional Counsel for the Region in which the Project is located, if the Authority or Contractor has knowledge of potential fraud, waste, or abuse occurring on any project receiving assistance from FTA. The notification provision applies if a person has or may have submitted a false claim under the False Claims Act, 31 U.S.C. § 3729 et seq., or has or may have committed a criminal or civil violation of law pertaining to such matters as fraud, conflict of interest, bid rigging, misappropriation or embezzlement, bribery, gratuity, or similar misconduct involving federal assistance. This responsibility occurs regardless of whether the project is related to this Contract or another agreement between the Authority and FTA, or an agreement involving a principal, officer, employee, agent, or Third Party Participant of the Authority. It also applies to subcontractors at any tier. “Knowledge,” as used in this paragraph, includes, but is not limited to, knowledge

of a criminal or civil investigation by a Federal, state, or local law enforcement or other investigative agency, a criminal indictment or civil complaint, or probable cause that could support a criminal indictment, or any other credible information in the possession of the Authority or Contractor. In this paragraph, “promptly” means to refer information without delay and without change. This notification provision applies to all divisions of the Authority, including divisions tasked with law enforcement or investigatory functions.

The Contractor agrees to include the above clauses in each subcontract financed in whole or in part with Federal assistance provided by FTA. It is further agreed that the clauses shall not be modified, except to identify the subcontractor who will be subject to the provisions.

Flow Down Requirements - The Program Fraud clause extends to all contractors and their subcontracts at every tier who make, present, or submit covered claims and statements.

The certification in this clause is a material representation of fact relied upon by the JTA. If it is later determined by the JTA that the bidder or Bidder knowingly rendered an erroneous certification, in addition to remedies available to the JTA, the Federal Government may pursue available remedies, including but not limited to suspension and/or debarment. The bidder or Bidder agrees to comply with the requirements of 2 CFR. Part 180, subpart C, as supplemented by 2 CFR. Part 1200, while this offer is valid and throughout the period of any contract that may arise from this offer. The bidder or Bidder further agrees to

include a provision requiring such compliance in its lower tier covered transactions.

Flow Down Requirements - Recipients, contractors, and subcontractors who enter into covered transactions with a participant at the next lower level, must require that participant to: (a) comply with subpart C of 2 CFR. 10. Buy America Requirements.

Authority - 49 U.S.C. 5323(j) and 49 CFR. Part 661 (49 CFR. § 661.13(b) and 49 CFR. § 661.6), FTA Master Agreement (30) at Sections 3(h), 16(d)(1) and 15 (a)-(b), FTA Best Procurement Practices Manual

Applicability – Construction Contracts and Acquisition of Goods or Rolling Stock valued at more than \$150,000. Work orders and small purchases of less than one hundred fifty thousand dollars (\$150,000.00) made with capital, operating, or planning funds are waived from Buy America requirements.

The Contractor agrees to comply with the domestic procurement requirements of 49 U.S.C. 5323(j), and FTA regulations, “Buy America Requirements,” 49 CFR Part 661, to the extent consistent with 40 U.S.C. § 5323(j), which provide that Federal funds may not be obligated unless all steel, iron, and manufactured products used in FTA funded projects are produced in the United States, unless a waiver has been granted by FTA or the product is subject to a general waiver. General waivers are listed in 49 CFR. § 661.7. Separate requirements for rolling stock are set out at 49 U.S.C. 5323(j)(2)(C) and 49 CFR. § 661.11.

The Bidder/Proposer must submit to JTA the appropriate Buy America certification below with its Bid(s) or Proposal(s). Offers that are not accompanied by a completed Buy America certification will be rejected as nonresponsive.

The JTA presumes that any Contractor who submitted such certificate is complying with the Buy America provisions. A false certification is a criminal act in violation of 18 U.S.C. § 1001. A Contractor who certifies that it will comply with the applicable Buy America requirement is bound by its original certification (in the case of a sealed bidding procurement) or the certification it submitted with its final offer (in the case of a negotiated procurement) and is not permitted to change its certification after bid opening or submission of its final offer. Where a Contractor certifies that it will comply with Buy America requirements, the Contractor is not eligible for a waiver of those requirements. The JTA reserves the right to request additional information, and/or to conduct both pre-award and post-award audits to ensure that the Contractor is in compliance with Buy America requirements.

In addition to the aforementioned Buy America Requirements, the Infrastructure Investment and Jobs Act (“IIJA”), Pub. L. No. 117-58 that includes the Build America,

Buy America Act (“the Act”) Pub. L. No. 117-58, Div G, Title IX, §§ 70911-27 (2021), as implemented by the U.S. Office of Management and Budget, the U.S. Department of Transportation, and FTA. The Authority and Contractor acknowledges that this agreement is neither a waiver of §70914(a) nor a finding under § 70914(b). The Act, requires the following Buy America Act preference:

1. All iron and steel used in the project are produced in the United States. This means all manufacturing processes, from the initial melting stage through the application of coatings, occurred in the United States.
2. All manufacturer products used in the project are produced in the United States. This means the manufactured product was manufactured in the United States, and the cost of the components of the manufacturer product that are mined, produced or manufactured in the United States is greater than 55 percent (55%) of the total cost of all components of the manufactured product, unless another standard for determining the minimum amount of domestic content of the manufactured product has been established in applicable law or regulation.
3. All construction materials are manufactured in the United States. This means that all manufacturing processes for the construction material occurred in the United States (IIJA §70912(2) and (6)(B)(ii)).

The Buy America preference only applies to articles, materials, and supplies that are consumed in, incorporated into, or affixed to an infrastructure project. As such, it does not apply to tools, equipment, and supplies, such as temporary scaffolding, brought to the construction site and removed at or before the completion of the infrastructure project. Nor does a Buy America preference apply to equipment and furnishings, such as movable chairs, desks, and portable computer equipment that are used at or within the finished infrastructure project but are not an integral part of the structure or permanently affixed to the infrastructure project.

Definitions

“Construction materials” include an article, material, or supply – other than an item of primarily iron or steel; a manufactured product; cement and cementitious materials; aggregates such as stone, sand, or gravel; or aggregate binding agents or additives – that is or consists primarily of:

41. FTA Clauses Required when DBE Threshold Has Been Met

Applicability – all contracts where there is DBE Participation

a. Contract Assurance. 49 CFR Part 26.13

The Contractor, subrecipient or subcontractor shall not discriminate on the basis of race, color, national origin, or sex in the performance of this Contract. The Contractor shall carry out applicable requirements of 49 CFR. Part 26.13 in the award and administration of DOT-assisted contracts. Failure by the Contractor to carry out these requirements is a material breach of this Contract, which may result in the termination of this Contract or such other remedy as the Authority deems appropriate.

Flow Down Requirements - This requirement flows down to all subcontracts at every tier.

b. Monitoring the Performance of other Program Participants. 49 CFR Part 26.37

The JTA will monitor each DOT funded contract with DBE participation to ensure that all work committed to DBEs at contract award or subsequently (as a result of contract modification) is actually performed by the DBEs to which the work was committed. Site visit will be conducted periodically by staff. Contractors' Request for Payment forms will be monitored to ensure that DBEs are being paid in accordance to their signed agreements.

All Prime Contractors will be required to self-report all payments received from the JTA into the B2GNow (Contract Compliance Tracking System). This system tracks payments made to the prime contractor and all payments made by the prime to any subcontractors, to include DBEs, and the timeliness of those payments in accordance to JTA's Prompt Payment Clause.

Flow Down Requirements - This requirement flows down to all subcontracts at every tier.

c. Prompt Payment. 49 CFR Part 26.29(a)

Contractors are required to pay all subcontractors for satisfactory performance of their contracts within seven (7) business days from receipt of each payment from the JTA. Failure to comply may result in future withholdings of prime contractor's reimbursements and/or other sanctions until the prime contractor ensure all subcontractors are being promptly paid for all work performed.

Flow Down Requirements - This requirement flows down to all subcontracts at every tier.

d. Return of Retainage. 49 CFR Part 26.29(b), FY2019 FTA Procurement System Review Guide at P11.

Contractor is required to ensure prompt and full payment of retainage to all subcontractors within thirty (30) days) after the subcontractor's work is satisfactorily completed. Contractor is prohibited from holding retainage from subcontractors until the project is completed. A subcontractor's work is satisfactorily completed when all the tasks called for in the subcontract have been accomplished and documented as required by the JTA. When JTA has made an incremental acceptance of a portion of a prime contract, the work of a subcontractor covered by that acceptance is deemed to be satisfactorily completed.

Flow Down Requirements - This requirement flows down to all subcontracts at every tier.

e. Termination for Convenience (DBE). 49 CFR Part 26.53

No prime contractor will terminate for convenience a DBE subcontractor that was listed and agreed to perform a project task (or an approved substitute DBE firm) and then perform the work of the terminated subcontract with its own forces or those of an affiliate, without prior written consent from JTA's Diversity & Equity Program Office. The prime contractor shall utilize the specific DBEs listed to perform the work and supply the materials for which each is listed unless the prime contractor obtains written consent from JTA's Diversity & Equity Program Office; and unless the consent is provided the contractor shall not be entitled to any payment for work or material unless it is performed or supplied by the listed DBE.

Appropriate administrative remedies will be invoked to any Prime Contractor that terminates and/or removes a DBE firm/s for convenience. Those remedies may include requirement to pay terminated DBE firm/s; withholding of future payments and/or retainage; and/or disbarment from future consideration of project awards with the JTA.

The Recipient agrees that FTA may review and approve the Recipient's technical specifications and requirements to the extent FTA believes necessary to ensure proper administration of the Underlying Agreement.

Relationship of the Award to Third Party Contract Approval.

The Recipient agrees that the terms of the Underlying Agreement do not, by themselves, constitute approval of any non-competitive third party contract associated with the Award, unless FTA indicates otherwise in writing.
